

CARE MANUAL

HOW TO TAKE CARE OF YOUR COSTUME

Make sure your costume is always protected by a costume bag. This way your costume stays neat for all your competitions.

After a competition, let your costume air before you store it until your next one.

Only wash your costume if really necessary. When you do, wash it by hand to make sure the rhinestones stay on well.

Be careful when you put your costume on. All the rhinestones have been placed with patience and care.

In case something breaks, feel free to contact me for a repair. In most cases this is free of charge.

With your order you receive extra rhinestones. If you're going to use them, it's best to get E-6000 glue.
